

AKIB SIDDIKI APU

Full Stack Developer (PHP/Laravel & Flutter)

📞 +8801778974170 @ akib.siddiki@gmail.com 🔗 <https://github.com/AkibSiddiki>

📍 Dhaka, Bangladesh

SUMMARY

Experienced Full Stack **PHP/Laravel Developer** and **Flutter Developer** with a strong background in building scalable, secure, high-performance **web applications and mobile apps**. Proficient in Laravel for backend development, specializing in crafting RESTful APIs, authentication mechanisms, and database optimization using **MySQL**.

On the front end, I utilize Bootstrap, Tailwind CSS, JavaScript, and Flutter to create dynamic, responsive web and mobile user interfaces. I have extensive experience working with Firebase, including FCM Notifications, and third-party API integrations. A problem solver at heart, I am committed to writing clean, maintainable code and continuously improving system performance to deliver an exceptional user experience.

Dedicated to delivering innovative and high-quality solutions, I thrive in fast-paced environments and am always eager to learn new technologies.

SKILLS

PHP/Laravel	Dart/Flutter	MySQL	Git
Firebase (Firestore, FCM)	JavaScript	Linux	RESTful API
S3 BUCKET	Firebase Authentication	MVC frameworks	

EXPERIENCE

Software Engineer

eMythMakers.com

📅 2023 - Present 📍 Kafrul, Dhaka

- Develop and maintain web applications using Laravel and PHP.
- Built and optimized news portals, e-commerce platforms, and knowledge repositories.
- Integrated third-party services, such as payment gateways and external APIs, ensuring scalability and performance.
- Also contribute to Flutter app development for news portals, including news display, push notifications via Firebase, and mobile ad integration.

Junior Software Engineer

eMythMakers.com

📅 2022 - 2023 📍 Kafrul, Dhaka

- Worked on PHP-based web applications, contributing to both backend development and frontend implementation.

EDUCATION

Bachelor's Degree in Computer Science & Engineering

Eastern University, Dhaka

📅 2018 - 2021 📍 Dhaka, Bangladesh

Diploma in Telecommunication Technology

Tangail Polytechnic Institute, Tangail

📅 2012 - 2017 📍 Tangail, Bangladesh

KEY ACHIEVEMENTS

- ✓ **Full-Stack News Portal Development**
Designed and deployed a high-traffic news portal using Laravel MVC architecture, featuring category-based browsing, real-time search, and Google Ads integration
- ✓ **Scalable E-Commerce Platforms**
Built secure, high-performance e-commerce systems, integrating regional payment gateways (Bkash, SSL Commerz) and global APIs (Stripe).
- ✓ **Mobile App Development**
Led the development of a cross-platform news app using Flutter, including real-time content updates, Firebase Cloud Messaging (FCM) notifications, AdMob ads, and dynamic content sorting.

STRENGTHS

- 💡 **Problem Solving**
Possess strong problem-solving skills, demonstrated by providing out-of-the-box solutions to project challenges
- 💬 **Team Collaboration**
Excellent team player, demonstrated by successful collaborations with product management & design teams.

PROJECTS

samakal.com News Portal Developed and maintenance (Team Collaboration)

📅 2023 - Present 📍 Dhaka, Bangladesh

🔗 samakal.com

Worked as part of a team to develop and maintain the Samakal News Portal, a high-traffic news website. Focused on backend development, database optimization, and frontend implementation to ensure a seamless user experience.
